THE FRANC CFA DISCUSSED AT GICAM

The Cameroon Employers' Organisation is pleased to announce the comeback of GICAM's diner debates, on Wednesday, April 17th, 2019, under a refurbished form. Now called "Le Debate-Patronal", this space of high-level exchanges, place of valorization of the company, of sharing of experiences, practices and knowledge, will be held on a semi-annual basis and will experience important innovations in terms of form and content.

In addition to the relevance of the theme, an emphasis is now placed on the quality of content and the interactivity of exchanges. The speakers, representatives of different think tanks, will form a panel of exchanges under the guidance of a moderator and around a single framing presentation made by a resource person, the Key Note Speaker.

The first edition under this new formula of "Débat-Patronal" will have for theme: "Franc CFA: asset or hindrance to the emergence of the countries of the CEMAC zone?" This will be the occasion for a dispassionate exchange on the situation and the prospects of the common currency of our zone, subjects which concern in the first place company managers, who unwillingly or willingly have generally remained absent to date.

Around the international expert mobilized for the occasion, the President of the CEMAC Commission will take part in the debate as well as a representative of the Central Bank and a Business Manager.

Participation in this meeting is opened to anyone interested by this issue, subject to registration; you can now book your seats by contacting the services of the Cameroon Employers' Organisation.

Yours faithfully

Alain Blaise BATONGUE
Executive Secretary

Le Patronat Camerounais
